## Comfort Clipboard Lite Activation

Comfort Clipboard Lite is a small software application that helps you work with multiple clipboard entries and save your favorite ones. The tool is able to capture text, images, and URL links as well. Unobtrusive running mode It runs quietly in the system tray until called upon where it reveals several handy parameters that you can tinker with. The automatic clipboard monitoring mode makes the entire process a piece of cake, as you only need to save items to the clipboard and the tool stores each entry in the primary window. Extending the functionality of your clipboard The main panel is transparent and displays all recorded clipboard entries. You can save the current clipboard item to the clipboard, export data to HTML or plain text file format, delete items, merge the selected text fragments, backup the information, as well as move items up or down. You can view a history with all items that you have copied to the clipboard (be they text, photos or URLs), save the favorite ones, perform search operations, and view the total number of characters detected for each text snippet. Configuration settings Comfort Clipboard Lite gives you the possibility to enable or disable sound notifications, run the tool at Windows startup, set high priorities, change the looks of the program by choosing between different themes, add a custom image (e.g. JPG, PNG, GIF, PCX) for altering the background, and adjust the background transparency. You can reassign hotkeys for showing the History or Favorites, tracking clipboard changes, and other options, limit the number of maximum clipboard entries (up to 100), specify the saving directory, add user-defined audio files (WAV file format) for the sound notifications, as well as create a list with applications that are excluded from the clipboard monitoring process. An overall efficient clipboard manager All in all, Comfort Clipboard Lite features sleek looks and provides support for several handy parameters for helping you manage your clipboard history. If you are looking for advanced options, such as encryption, unlimited number of clipboard entries, and editing functions, you can check out the professional version of the program, which can be found here.
