Keymacro is a free utility, that allows you to create macros. For those who are unaware, a macro is a sequence of keyboard commands that can be recorded and later run. Simply record your keyboard commands and play them whenever you want. Macros can be recorded for a specific app, or as a universal macro that can be used for all the apps you use. Keymacro supports recording and playback of keystrokes for Windows XP, Vista, 7 and 8. You can also set up macros for Chrome, Firefox, Internet Explorer and Opera. Keymacro supports many commonly used actions, including: Open an application Open a folder Open a file Copy a file Paste a file Open a url Copy a url Paste a url Paste a string Macros can be recorded using the keyboard or the mouse. For example, you can press the Alt key to open a folder or to copy/paste a file/url. Alternatively, you can use the mouse to drag and drop. You can also record mouse movements, such as a mouse click or a drag. With Keymacro, you can control mouse movement by holding down a key, such as the Ctrl, Alt or Shift keys. For example, holding the Shift key down for a while will allow you to move the mouse in one direction. The macros are stored as recordings of keystrokes in the Keymacro database. When the program is launched, it automatically checks if any macros have been created. If there are no macros, the program will start recording the keystrokes. However, if any macros have been created, the existing macros will be played. Once recorded, a macro can be played back by pressing the corresponding key combination. There are two types of macros: those that can only be recorded and those that can only be played. If you have a macro that you can play but cannot record, then you can use the function Play Macro and record the playback. Keymacro is a free utility that can be used to create macros. Once created, they can be used to automate repetitive tasks. Features: Keymacro is a freeware application and as such it is ad-free and offers no in-app purchases or registration required. Keymacro comes with a clean and simple interface, designed to get you started quickly and easily. The program allows you to create macros for Windows XP, Vista, 7, and 8. You can also record mouse movements 1d6a3396d6
