You need to change the folder name to.pdc and rename it. Once you do that go into your System Settings and find it. Then go into the options and change it to something else like.mpg (Movie Player). This will let you use your screen as a flash screen for the network accessories. I found that this was the best way because I didn't have to mess with any drivers or anything. The role of primary health care in the Greek healthcare system. Despite the recent economic crisis and the fundamental measures taken by the government to improve the health sector, the Greek healthcare system appears to be on the brink of collapse. The system is in dire need of reform, given the fact that nearly one in three people suffers from chronic diseases and the widespread use of obsolete technologies. The Public Primary Care Centres (APOCs) represent the first line of defence against the escalation of chronic diseases and are expected to cover approximately 70% of the country's population. The APOCs are the organizational base for the Primary Health Care Act, announced by the Ministry of Health and Social Solidarity in May 2010. However, while the Act aims to accelerate reform and rationalize resources, its implementation is stalled because of serious financial, administrative and human resources constraints. To initiate steps in the right direction, the Ministry of Health and Social Solidarity must act 1cb139a0ed
