[PLEASE REVIEW!] 1. Fun gameplay As a Legend of Vana'diel player, I want the next Legend of Vana'diel be included! ▷ And if you're planning on making a new Legend of Vana'diel title, please don't forget to add the Elden Ring. ♪ ▷ It's not only fun, but also a real treat to play together with the characters from LOV. ▷ I think that it would be cool to have a PvP fight inside the Tower of Resurrection. ▷ The way you choose a job and the way you assign your party are also very interesting. 2. Your character development is highly sophisticated Everyone likes to customize their characters and spend their time to complete their character. However, the traditional method of grinding experience has some drawbacks like making your character get tired quickly and unlocking the job at a very early stage. ▷ In the Elden Ring, you can easily raise your strength and the minimum level for unlocking your jobs. ▷ In addition to raising your level, you can even customize the color of your clothing and your weapon and magic with simple actions. ▷ I want to try out the level-up method, and the system of character development will be useful. 3. The world is huge I hope that the number of monsters and actions will increase. It feels like you're missing out on something if you don't see the all the monsters that you can encounter. ▷ I want to know more and explore the entire world, as well as talk about monsters that you haven't seen yet. 4. The atmosphere and story This game would not exist without a good story, and the characters would have no voice if there was not a good atmosphere. ▷ I think that I can introduce the atmosphere of the game to my Legend of Vana'diel fans! Thank you for reading. === ▷ If you have any comments, please let us know through the comments box at the bottom of the post. ♪ [Please review!] ♪ ▷ This preview was translated from Japanese.
