NiteFly - Vintage Flying Guitars and Other Rare Instruments. www. NiteFly. co. uk (New. The Universal Serial Bus (USB) was introduced on January 12, 1996 by Compaq, Hewlett-Packard and Intel. It was later adopted as an industry standard on June 1, 1996 by the USB Implementers Forum (USB-IF). After the first Prodigy was released in the Summer of 1997, it quickly became both the first mass-produced and popular computer peripheral that used USB, and the device that popularized the port in the mass market. A plug and play device, the Prodigy was also the first device to use USB's ability to be modular. With standard cables and jacks for power and communication, a PC could be replaced with just one Prodigy cable, and this ability encouraged the concept of "plug and play" PC peripherals, even before that term was coined. Q: SQL Server connection string to unencrypted SQL Server I need to connect from a client via SQL Server Management Studio to a SQL Server instance (in an intranet). I have to connect to it using SQL Server Management Studio. I don't need security when connecting, just to be able to do normal work with data. In order to do this, I created a new user and database. I copied the following connection string: Data Source=SQLSERVER_INSTANCE;Initial Catalog=User_Database_Name; I'm able to connect with this connection string. I've tried to connect with other users and database, but it doesn't work. When I've checked the properties of the user I've created, I've found that the default authentication is Windows Authentication (it's not clear for me if this is the case in general for all users, I don't know). When I try to connect to the database for the user I have created, I receive the following error:
