Ask HN: Sampling Time Series Data - mc I'm working on a project where I need to do some analyzing on time-series data. I have a lot of time-series data and I need to decide if I need to store the data or not. But to be able to do this, I need to be able to sample the data and compare sampled data and the whole dataset. So my question is what are some sampling methods I can use? I need to be able to perform linear regression, analysis of variance etc. ===== tkahnz [1. Field of the Invention The present invention relates to an electric junction box connected to two separate circuits, each having an electric wire, which are covered by a single
