if anyone is interested in support for anything else, like here is the download link to the frozen throne no cd crack from blizzard for world of warcraft (world of warcraft patch 8.1.5-8.3.5.145), follow this link . the alliance (the humans are not the main characters) campaign follows the adventures of prince kael'thas, leader of the blood elves, a group of high elves that survived the invasion of quel'thalas by the scourge. originally helping the alliance, the blood elves are imprisoned by a racist human knight, lord garithos, and are eventually rescued by lady vashj and her naga. vashj then takes kael'thas to the outland, the remnants of the orc realm draenor, to meet (and free) their master, illidan. after fending off maiev (again) and gaining the allegiance of the native draenei, illidan is able to conquer the outland, where he hopes he will be safe from his failure to use the eye of sargeras to destroy the frozen throne. but his master, the demon lord kil'jaeden, catches them nonetheless, and the episode ends with illidan renewing his vow to destroy the lich king. to someone you have to apply the patch, just downloading it wont work. i am not sure how because i never used the download but my guess is that u have to open it up(the download that is) or try to connect to bnet on frozen throne(which should give a download bar at 100% and will automaticlly update) zince u probably are unable to open frozen throne because it is not 1.21a, try downloading the 1.20e no cd crack from the internet and then open up and update frozen throen to 1.21 via opeinging bnet then put ur 1.21a no cd crack back in this is so complicated. my starcraft one worked under 2 min with bnet and everything.

its not the best game ever made, but i think its the best warcraft 3 game ever made. like most of the blizzard games, it was better than its predecessor. the frozen throne was still a huge success as it only cost \$40 to play, and you can even play it now as it is free to play from the war3 website. it has the best graphics and gameplay from the original warcraft 3. it also has an interesting strategy element with the story being the rpg part of the game. if you like the classic version of the game, its one you should play. the frozen throne offers you lots of new weapons, armor, and spells that you can unlock, and you can even unlock the achievements for completing the story mode. i don 't think anyone can do the story mode without unlocking all of the achievements, and i think the achievements are harder than the game itself. the frozen throne is the best expansion pack ever released for the game. it also makes the game a lot harder than its predecessor, which was a huge plus. if you are a fan of the warcraft 3 series and you're looking for the best game ever made, then you should get the frozen throne. as a side note, if you ever want to play the old warcraft 3 online, you can still do so. when blizzard removed the classic version from battle.net, they also removed the online multiplayer of the classic version of the game. this means that you can still play the old warcraft 3 online as long as you remember the online code for the 2002 version. what's that you say? warcraft 3: reign of chaos has an offline, single-player mode? you must be joking, right? not for you! but to those who have already played the single-player campaign of warcraft 3: reign of chaos, you will be glad to know that you can get it for free with your purchase of the frozen throne for the 2002 version of the game. for those who have never played the single-player campaign of the previous version, it was based on the events from the first warcraft 3 game that was released back in 1994. warcraft 3: reign of chaos features the same heroes that were featured in the original game, and it also features the same maps that were featured in the original game. there are also two new maps that were released to the public which were developed by mappers in china. 5ec8ef588b
